PHILIP MORRIS
U.S.A.
INTER-OFFICE CORRESPONDENCE

RICHMOND, VIRGINIA

To: William B. Cridlin, Jr., Esquire Date: June 2, 1971

From: J. S. Osmalov

Subject: Outside Idea #298-R - I. H. Scheinberg

Our evaluation of the subject idea shows that no reduction in carbon monoxide is achieved during smoking when the supplied material is used either in a filter with a 16 2/3 mm space fill, 70 mg loading, or in a cartridge having a 300 mg loading.

We have no further interest in this idea and recommend that it be rejected.

J. S. Osmalov
